ADDENDUM #2 TO AMENDED RFP

August 2, 2022

ADDENDUM #2

Last week, Democrats in the United States Senate released the text of The Inflation Reduction Act of 2022 (hereinafter the “Act”). The Act has numerous provisions and tax implications which could materially impact your proposal(s). For example, § 13801 of the Act proposes to monetize certain clean electricity investment tax credits by permitting a tax-exempt entity to receive a direct payment. The potential of receiving such a payment is of particular interest to XNA, and could significantly change our evaluation of proposals submitted in response to the Amended RFP dated July 12, 2022. In addition, we expect that potential proposers and their teams are devoting a significant amount of time to the evaluation of the Act and preparing for whatever eventualities may lie ahead if it is enacted. For these reasons, we are extending the deadline to submit proposals to September 7, 2022, at 10:00 a.m. CDT.
