Independent Accountants' Report on Financial Statements and Supplementary Information

The Commissioners of the Soil and Water
Conservation Commission

The Board of Directors of
Arkansas Development Finance Authority ("ADFA")

We have audited the accompanying statements of net assets of the State of Arkansas Safe Drinking Water Revolving Loan Fund Program (the "Program") as of June 30, 2005 and 2004, and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the Program's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in *Note 1*, the financial statements of the Program are intended to present the financial position, and the results of its operations and cash flows, where applicable, of only that portion of the business-type activities of the State of Arkansas (the "State") that is attributable to the transactions of the Program. They do not purport to, and do not, present fairly the financial position of the State as of June 30, 2005 and 2004, and the changes in its financial position and its cash flows, where applicable, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Program as of June 30, 2005 and 2004, its changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The Commissioners of the Soil and Water
Conservation Commission

The Board of Directors of
Arkansas Development Finance Authority (“ADFA”)
Page 2

In accordance with *Government Auditing Standards*, we have also issued our report dated August 31, 2005, on our consideration of the Program’s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The accompanying management’s discussion and analysis is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

State of Arkansas Safe Drinking Water Revolving Loan Fund Program Management's Discussion and Analysis

This discussion and analysis is designed to assist the reader in focusing on significant issues and activities and to identify any significant changes in the financial position of the Drinking Water Fund Program (the "Program"). Readers are encouraged to consider the information presented in conjunction with the financial statements and notes as a whole, which follow this section of the report.

Discussion of Financial Statements

The basic financial statements include three required statements: the statement of net assets, the statement of revenues, expenses and changes in net assets, and the statement of cash flows. Comparative totals as of and for the years ended June 30, 2004 and 2003 are also presented. Although not required, these comparative totals are intended to facilitate an enhanced understanding of the Program's financial position and results of operations for the current fiscal year in comparison to the prior fiscal year. Additional information, following the Notes to Financial Statements includes the combining statement of net assets, the combining statement of revenues, expenses and changes in net assets as well as the combining statement of cash flows. These combining statements detail the Revolving Loan Fund, the Fees and Expense Fund, the Small System Technical Assistance Set Aside, the Well Head Protection Set Aside, the Capacity Development Set Aside and the State Program Management Set Aside, which comprise the Program.

Condensed Financial Information – Statement of Net Assets

(In thousands)

	2005	2004	2003
Total assets	\$ <u>60,006</u>	\$ <u>34,026</u>	\$ <u>23,459</u>
Current liabilities	213	148	1,415
Noncurrent liabilities	<u>1,987</u>	<u>1,330</u>	<u>906</u>
Total liabilities	<u>2,200</u>	<u>1,478</u>	<u>2,321</u>
Total net assets – restricted for program requirements	\$ <u><u>57,806</u></u>	\$ <u><u>32,548</u></u>	\$ <u><u>21,138</u></u>

The Program's total assets have continually increased over the past three years. Total assets increased 76.4% and 45.0% for years ending June 30, 2005 and 2004, respectively. The increase is primarily attributed to the funding of \$14.3 million of the \$24.1 million in new loans approved during fiscal year 2005 as well as disbursements of \$11.3 million related to existing loans. In fiscal year 2004, the Program had fundings totaling \$2.9 million of the \$16.1 million in new loans approved during the year as well as disbursements of \$9.3 millions to existing loans. The Program issued five new loans for fiscal year 2005 to the City of Texarkana, the City of Cabot, the City of Mountain Home, the City of Glenwood and the Sardis Water Association, thus the total loans number of loans outstanding at June 30, 2005 is 18. The construction period for the loans of the Program is approximately two years.

**State of Arkansas Safe Drinking Water
Revolving Loan Fund Program
Management's Discussion and Analysis (Continued)**

The Program's current liabilities have decreased \$1.2 million since fiscal year 2003. The decline is primarily attributed to the accrual for the program administration expenses payable to the Department of Health ("DOH"). The amounts payable to DOH were \$160 thousand, \$120 thousand and \$1.4 million at June 30, 2005, 2004 and 2003, respectively. Noncurrent liabilities have increased which is attributable to the three percent (3%) loan-closing fee received by the Program that is amortized over the life of the loan. Arkansas Soil and Water Conservation Commission ("ASWCC") collected \$723 thousand, \$457 thousand and \$376 thousand in fees in fiscal years 2005, 2004 and 2003, respectively.

Condensed Financial Information – Statement of Revenues, Expenses and Changes in Net Assets *(In thousands)*

	2005	2004	2003
Total investment income	\$ 1,084	\$ 584	\$ 399
Other income	<u>455</u>	<u>249</u>	<u>410</u>
Total operating revenues	1,539	833	809
Administrative expenses	<u>75</u>	<u>49</u>	<u>41</u>
Operating income	1,464	784	768
Transfers in (out)	1,114	(2,141)	(2,984)
Federal grants	<u>22,680</u>	<u>12,767</u>	<u>9,175</u>
Change in net assets	25,258	11,410	6,959
Net assets			
Beginning of year	<u>32,548</u>	<u>21,138</u>	<u>14,179</u>
End of year	<u>\$ 57,806</u>	<u>\$ 32,548</u>	<u>\$ 21,138</u>

Included in the total investment income is interest received on loans, which has gradually increased in the last three years from \$333 thousand at June 30, 2003, \$538 thousand at June 30, 2004 and \$960 thousand at June 30, 2005. The attributing factor to the increase is the continuous funding of loans at a faster pace than repayments in the Program. Also, during the construction phase each municipality remits interest semi-annually on the outstanding loan balance. Revenues from investments have fluctuated over the past three years. The balance of interest income was \$124 thousand, \$46 thousand, and \$66 thousand for the years ending June 30, 2005, 2004 and 2003, respectively. The average return on cash and cash equivalents for those years were 2.0%, 0.78% and 1.21%, respectively.

The change in net assets of \$25.2 million for the year ending June 30, 2005, increased \$13.8 million in fiscal year 2004 and increased \$4.5 million in fiscal year 2003. These increases are attributable to the amount of federal grants received during the year. The Program primarily uses the grants for funding loans and paying expenses. These funds are drawn down from the federal government as expenses are incurred by the cities, ASWCC, or DOH. In fiscal year 2005, the Program received as a transfer in \$3.3 million from ASWCC Water, Waste Disposal and Pollution

State of Arkansas Safe Drinking Water Revolving Loan Fund Program Management's Discussion and Analysis (Continued)

Abatement Facilities General Obligation Bond Fund Program, which represented the state matching funds for the Program. Transfers in are offset by transfers out to other agencies of \$1.8 million to the DOH and \$377 to ASWCC. In fiscal years 2004 and 2003, transfers out represent the transfers of \$1.8 million to DOH and \$322 thousand to ASWCC and \$2.7 million to DOH and \$332 thousand to ASWCC, respectively. The transfers out reimburse the agencies for expenses relating to the administration of the Program.

The overall financial position and results of operations of the Program have improved.

Contact Regarding the Program

This financial report is designed to provide constituents and business partners with a general overview of the Program's finances and to show the Program's accountability for the funds it administers. Questions about this report and requests for additional financial information should be directed to the ADFP Vice President for Finance and Administration by telephoning (501) 682-5900 or by contacting the ASWCC Water Development Division Chief at (501) 682-1611.

Notes to Financial Statements
June 30, 2005 and 2004**

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations and Reporting Entity

Act 772 of 1997 as amended (the "Act") authorized the establishment of a fund known as the Safe Drinking Water Fund (the "Program") to be maintained and administered by the Arkansas Soil and Water Conservation Commission (the "Commission" or "ASWCC") and the Arkansas Department of Health. Effective August 12, 2005, ASWCC will be known as the Arkansas Natural Resources Commission by Act 1243 of 2005. This is not expected to have an impact on the Program. The Program is to be capitalized with federal grants, state matching grants, other grants, proceeds of bonds issued by the Arkansas Development Finance Authority ("ADFA") or the Commission for the Program, and loan principal, interest and fees charged to administer the program. These funds may be loaned for water system projects, pledged and used to pay debt service and related costs, used to pay administrative expenses and provide technical assistance for the Program, and used for other purposes related to the program.

ADFA serves as financial manager for the Program under an interagency agreement. ADFA is responsible for investing and disbursing funds as authorized by the lead agency, servicing loans, preparing and submitting monthly financial reports and annual financial statements, and procuring auditing services. ADFA is reimbursed for Program administration costs through a calculation based on loans outstanding in accordance with an interagency agreement with ASWCC. The amounts paid to ADFA for administration costs for the years ending June 30, 2005 and 2004 were \$53 thousand and \$28 thousand, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Accounting Method

The Program utilizes the proprietary fund method of accounting whereby operating revenues and expenses are distinguished from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating items. All revenues and expenses are recognized on the accrual basis. Pursuant to Governmental Accounting Standards Board (GASB) Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, the Program has elected not to apply the provisions of all relevant pronouncements of the Financial Accounting Standards Board (FASB) issued after November 30, 1989, unless the GASB specifically adopts such FASB Statements or Interpretations. The Program first applies restricted net assets when an expense or outlay is incurred for purposes for which both restricted and unrestricted net assets are available.

**State of Arkansas Safe Drinking Water
Revolving Loan Fund Program
Notes to Financial Statements
June 30, 2005 and 2004**

Cash and Cash Equivalents

The Program considers all liquid investments with original maturities of three months or less to be cash equivalents. At June 30, 2005 and 2004, cash equivalents of approximately \$6.6 million and \$5.9 million, respectively, consisted primarily of money market mutual funds with variable interest rates.

Loan Receivables

The Program originates loans with Arkansas municipalities for financing the construction of drinking water treatment facilities. These loans are payable in semi-annual installments. At June 30, 2005 and 2004, such loans had a carrying value of approximately \$52.9 million and \$27.8 million, respectively. The loans bear interest at 2.25% to 2.9%, and are collateralized by special assessments, by user charges or by sales and use tax bonds issued by the municipalities.

Through the year ended June 30, 2005 and June 30, 2004, approximately \$72.4 million and \$48.3 million, respectively, had cumulatively been approved for funding. At June 30, 2005 and June 30, 2004, approximately \$18.4 million and \$15.5 million, respectively, remained encumbered and awaiting disbursement to loan recipients.

Net Assets Restricted for Program Requirements

Represents funds restricted due to the specific provisions of the Program.

Income Taxes

As an essential government function of the State of Arkansas, the Program is exempt from income taxes under Section 115 of the Internal Revenue Code and a similar provision of state law.

Note 2: Deposits and Investments

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Program's deposits may not be returned to it. The Program's deposit policy for custodial credit risk requires compliance with the provisions of state law.

Investments

The Program may legally invest in direct obligations of and other obligations guaranteed as to principal by the U.S. Treasury and U.S. agencies and instrumentalities and other investments as allowed by state law and, as applicable, ADFA's investment policy.

**State of Arkansas Safe Drinking Water
Revolving Loan Fund Program
Notes to Financial Statements
June 30, 2005 and 2004**

At June 30, 2005 and 2004, the Authority had \$6.6 million and \$5.9 million, respectively, invested in money market mutual funds, with the fair value equaling the carrying value.

The Program invests in two money market mutual funds. The Regions Money Market Select Treasury Money Market Fund is rated "AAAm" by Standard & Poor's. The Federated Treasury Obligations Fund #398 is rated "Aaa" by Moody's Investors Service and "AAAm" by Standard & Poor's.

The maturity of the funds is considered to be less than one year because they are redeemable in full immediately. These funds are reflected as Cash and Cash Equivalents in the Statement of Net Assets.

Note 3: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. Those matters include the following:

Economic Dependency

The Program is economically dependent upon revenue from the Environmental Protection Agency. During 2005 and 2004, the Program received approximately 94% of total revenue in the form of federal grants.

Contingency

The Program is capitalized by state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustments by the grantor agencies; therefore, to the extent that the Program has not complied with the rules and regulations governing the grants, refunds of any money received may be required, and the collectibility of any related receivable at June 30, 2005 and 2004, may be impaired. In the opinion of the management of the Program, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such a contingency.
